WELCOME TO TRADEMARK

We all have busy lives, and it can be tough trying to find the time to balance work, marriage, children, etc. Investing should not be something that you have to make time to monitor and manage. We are a boutique investment management team that seeks to bridge the gap between impersonal investments and a sound personal financial plan. We are an experienced team of investment professionals committed to a solid plan of portfolio management based upon active adjustments, as appropriate, in response to what we know to be true: markets change. We set our sights on the individual investment goals, priorities, and limits of each client to develop a roadmap designed to reach the intended financial destination.

THE PROBLEM: INDUSTRY PASSIVE BUY & HOLD APPROACH

Standard portfolios are passive, no matter the market environment. Quite simply, the holdings within a standard portfolio will remain the same, whether in a high-return/low-risk market, or vice versa. Just as your habits and attire evolve with the seasons, at Trademark, we believe, so too should your portfolio. Passive portfolios can contribute to emotional turmoil during dark and stormy markets. And this turmoil can in turn lead to bad investment decisions.

This is what you can normally expect from a Passive Buy and Hold portfolio for all market cycles.

A BETTER WAY

WHAT WE DO

Trademark Total Portfolio Solutions are designed to make material shifts in your portfolio, by matching your unique investment goals with the changing market environment. These shifts apply to high-return/low-risk markets, low-return/high-risk markets, and everywhere in between. When you invest with Trademark Capital[®], we actively manage your portfolio. We do not sit statically and advise you to stay the course regardless of what the market is doing. We watch the market and make tactical shifts as necessary based on our model. We believe successful investors do not avoid risk; they manage it.

DISCIPLINED APPROACH

Our investment posture is based on our proprietary data-driven model, which analyzes multiple indicators on an ongoing basis to detect risk in the market. Our model gives us specific signs that inform our decision as to whether or not it is prudent to stay invested or modify our exposure. We believe being disciplined to our model will bring long-term success, and that is our focus. We are not “perma-bears,” quite the opposite. We want to be in the market, but only when our model indicates it is time to do so. We want all our clients to understand that we are here to make money, not just to protect money.

DISCLOSURES

Trademark Capital Management, Inc. ("Trademark") is an investment adviser registered with the U. S. Securities and Exchange Commission under the Investment Advisers Act of 1940. Trademark Capital® is a registered service mark of Trademark Capital Management Incorporated, Watkinsville, Georgia. All other trade names, trademarks, and/or service marks are the property of their respective holders. Trademark is the investment manager to separate accounts and well as collective investment trusts offered to qualified retirement plans. As with all investments, Trademark's investment strategies are subject to risk and may lose money. Investment return and principal value of an investment will fluctuate so that an investor's portfolio may be worth more or less than their original investment. The investment strategy presented is not appropriate for every investor and individual clients should review with their financial advisors the terms and conditions and risk involved with specific products or services. Due to our active risk management, our managed portfolios may underperform during bull markets. No formula, model or other device is guaranteed to determine which securities to buy or sell, or when to buy or sell them.
